PCEA 2015 National Convention
St. Simons Island, GA April 29—May 3
The Catawba Valley Host Chapter is planning an enjoyable and informative convention in beautiful St. Simons Island. Some great construction seminar programs will be presented and it promises to be a great convention. The Call To Convention registration and program schedule will be sent out by early March. Please make plans to attend.
Wake Tech Offers Heavy Equipment Operator Training Program

Wake Tech Community College has announced that it will launch a high-tech heavy equipment operating training program in January. This program will be one of the first in the country to use simulators for training, and the only one of its kind in eastern North Carolina.

Simulation is the future of higher education. Simulators will take the place of heavy-duty vehicles and machinery currently used for training operators. Heavy equipment simulators will eliminate the need for costly repairs to outdated equipment and reduce the risk of worker injury during training. Wake Tech has worked with construction industry representatives to verify their needs and develop the program accordingly. Local companies have agreed to provide college students with hands on training. Simulators in the program include backhoes, excavators, bulldozers with grade control and motor graders.
2015 PCEA Membership Drive
PCEA Triangle Chapter

The PCEA Triangle Chapter is sponsoring a Membership Drive

For our Chapter of the PCEA to grow and flourish we need to continue to bring in new members. The very best way to grow our membership is through the word of mouth of the active members. In order to encourage the active membership to bring in new members into our elite group of Business Owners, Managers, Estimators and Sales Representatives working within / or supporting the Construction Industry we are going to have a membership competition.

Our overall goal for the current year is to add 20 new members to the Triangle Chapter. This would increase our active membership by approximately 50%!!! If we add a minimum of 10 new members to the total membership by May 31st of this year, then the member who is credited with the most new members enrolled and dues* received, will receive $500.00! If we do not reach the minimum goal, but have increased our membership by at least 5 new members, then the member who brought in the most new members, will receive $200.00.

It takes the efforts of EVERY member to continue to grow our organization and rebuild our ranks to our previous levels. Spread the word, talk to your co-workers, talk to your supervisors, and put some cash in your pocket!

A copy of the New Membership Application can be printed directly from our website at the following link. Additionally, the new membership application can be completed and paid for only as well.

Become a Member

* Please note the yearly dues are based on the Fiscal Year that starts on June 1st. Therefore, the 1st year dues payment will be prorated for the remainder of the current year.

** The Initiation Fee is required for all new members. It is not required for any rejoining members.
